We have on various occasions seen fit, on public grounds, to deprecate the present very large employment of Chinese in the Police. We have done this on several difforcut and equally tenable grounds. The lokang is, as a rule, timid and loath to intervene in any serious row, he is peculiarly susceptible to temptation in the shape of bribery, and the service is not popular among the more respectable classes of Chinese labourges, and recruits are therefore necessarily drawn from the lower ranks of the coolie class, with the result that they are neither feared nor respected by the Chinese population. Having said so much, and still maintaining it, we think it only right to draw special attention to the praiseworthy conduct of some members of the Chinese contingent within the last few days. In both cases the lokangs appear to have acted the part of guardian angel to the British Jack Tar, and done him good service. In the first case it seems the lokang noticed a suspicious character among a lot of sailors who were in Queen's ling, under the presidency of the District Grand fund. This seasoned ruffian met with his deserts at the Police Court on Thursday. We trust that at the same time a note was made by the Police Authorities of the lokang's vigilance and good conduct, for it is most desirable that such men should be encouraged. The sailor has so many enemies ashore that it is a great satisfaction to find some of the Chinese policemen keeping so sharp an eye upon their movements. The Black Flags and Chinese then fell back, but their retreat is cut off. One report has it that the garrison have retired four miles, and therethrown up fresh earth-works. They can. however, be prevented from escaping, unless they swim the river, and it is probable that another attack will be made upon them. The losses of rather heavy owing to the galling fire from the entrenchments, but when olors quarters were reached the superiority of the French troops was at once established. Admiral Courbet entered the citadel on the morning of the 17th inst., from whence he dated his despatch. The fall of Sontay may possibly hasten the operations against Bacninh, which according to some accounts, is not so strong a position naturally as Sontay.

One of the establishments, a pawushop at Huchow, is said to be worth Tls. 400,000 What it will realise for the benefit of the creditors, after being well handled by verscious officials, is another thing. It is only now and then that such a chance occurs, and the best must be made of the opportunity.

Not many years ago a foreign lady in Shanghai was a novelty. The change that has taken place is remarkable: the community has rapidly lost many of its old bachelor associations, and has now assumed the less excitable but more satisfactory condition of English life. A forgible illustration of this was given on the 19th inst. at the residence of the Rev. A. J. Bamford, when seven infants were baptised, and the coremony to their fond parents and friends was most interesting. A similar occurrence, we believe, has never before taken place in Shanghai, and it is especially noteworthy as showing the great change that has taken place during THE COMPRADORES! COP. The seven infants baptised this morning are, however, only a few of those that have been born in our midst during the last couple of years or so, and the important question comes forcibly to the mind, whore are they all going to be educated? It is certainly

Owing to the number of robberies at the Lower Dock at Pootung, Messra, S. C. Farnhem & Co. recently engaged two Sikhs as watchmen, and in consequence, there has been less pilfering there lately, from the fact that the Sikhs were more expert in arresting thieves. This appears to have annoyed the thioving fraternity, and their anger culminated in an outrage on one of the Sikhs on Sunday, the 16th inst. This man was on duty on Sunday morning, and at about five o'clock caught a thief in the act of stealing some scraps of iron, at the same time recognizing him as one of the goolies who were occasionally employed at the Dock. The Sikh then locked the Chinaman up in one

of the godowns, and as is usual when a thick in caught, a rope was tied to his tail and thrown over a beam to keep the oulprit from running away, his hands at the same time being fastence behind him. It was intended to keep the thiel there till the tide turned, when he was to have been sent up to Shanghai. The door of the godown was then looked, and the Sikh later on handed the key to a Chinese shroff, and went to aloop. At 10 o'clook the thief was visited by the Chinese shroff and he was then all right At noon, when the tide had turned, arrangements of the deceased were soon informed of the death 1 of one of their confrores, and, collecting in a crowd, they proceeded to the dock premises and hunted for the Sikh. They soon found him, and as he could not successfully resist so beat him with atloke and bamboos, and tied his hands together. In this condition they took him to the house of the nearest tipao, who lived about a mile distant and further down the river. They also took the Chinese shroff with them. The tipeo did not know what to do in the matter, but advised the mob to take their prisoners to the city. This was about five object in th in the afternoon there had been a rumour in the settlements that there was something wrong at Pootune, but it was thought the only parties concerned were all Chinese. As soon as it became known that a Sikh was in danger, the Inspectors, pine foreign Constables and three 1 Chinese; and when they arrived at the Dock, everything was unjet.
